PROFESSIONAL PROFILE

Eight months' experience in a public accounting firm and in the finance department of a listed international banking group: review of 40 client files, cycle testing, bank reconciliations and year-end closing, then monthly reporting and variance analysis. Accounting error rate reduced from 15% to 5% on the purchase-to-pay cycle. Advanced Excel (pivot tables, lookups, modelling), SAP ERP, Sage 100, Power BI.

PROFESSIONAL EXPERIENCE

Accounting, Control & Financial Reporting Intern | Wafasalaf (Attijariwafa bank Group), Casablanca, Morocco | 06/2025 – 08/2025

- Reviewed the purchase-to-pay cycle within a listed international banking group: matching of purchase orders, invoices and payments, substantiation of balances, monitoring of commitments and resolution of disputes.
- Improved the reliability of accounting data through consistency and completeness testing, variance analysis and identification of internal control weaknesses in the process; error rate reduced from 15% to 5% in 3 months.
- Produced the monthly reporting packs and dashboards (Excel, PowerPoint) presented to management, working daily with the accounting, procurement and supplier teams.

Public Accounting Intern — Client Account Review & Year-End Closing | ACF Conseil (public accounting firm), Casablanca, Morocco | 07/2024 – 09/2024

- Contributed to the review of a portfolio of 40 client files (small, medium and mid-cap companies in industry, services and trade): account matching, bank reconciliations, cycle testing, substantiation of accounts and year-end closing work.
- Supported senior staff and partners throughout the assignment: interviews with accounting managers, preparation of working papers, summary memos and presentation of recommendations to company directors.
- Automated the tracking of assignments and deadlines in advanced Excel (pivot tables, lookups): reporting time halved and the procedure fully documented.

Sales Administration Intern — Data Control & Quality | Xcopy, Casablanca, Morocco | 06/2024 – 07/2024

- Checked over 200 client files: database clean-up, control of supporting documents and strict compliance with confidentiality requirements (GDPR).
- Redesigned and standardised the processing workflow: handling time cut from 8 to 2 minutes per file, with 2 colleagues trained on the new procedure.
