PROFILE

Master's student in Accounting, Control & Finance (CCF) at EM Strasbourg, with 3 experiences in regulated banking environments, cash management and process optimization. I turn raw data into actionable recommendations and measurable avoided costs. AMF certification in progress (March 2026). Trilingual: French C2 · English B2 · Arabic (native).

PROFESSIONAL EXPERIENCE

Finance Internship – Financing Data Reliability

Wafasalaf (Financial Institute) | June 2025 – Aug. 2025 | Casablanca, Morocco

- Improved the processing of ~40 files/week by creating an audit grid with 3 control checkpoints (consistency, completeness, regulatory compliance), reducing the anomaly rate by 67%.
- Cut back-and-forth with sales teams by a factor of 3, accelerating each financing decision by one business day.
- Participated in team meetings and contributed to coordination between back-office and commercial teams.
- Formalized a global deployment recommendation targeting an anomaly rate below 3%.

  > Full methodology available on my portfolio

Management Assistant – Cash Flow & Client Cycle

Driving School | Sept. 2024 – May 2025| Casablanca, Morocco

- Eliminated all undetected outstanding payments over 9 consecutive months by structuring a weekly Excel reconciliation table covering ~20 active files/month across 3 payment methods (cash, cheque, bank transfer).
- Optimized data entry from 2h to 20 min/week, recovering ~70 hours over the duration of the role by parallelizing administrative file management, client reception and team coordination.

  > Dashboard and reconciliation method available on my portfolio

Internship – Process Optimization & Operational Cost Reduction

Xcopy (Office Solutions) | June - July 2024 | Casablanca, Morocco

- Reduced document search time from 8 min to 2 min (–75%) by redesigning an archiving system across 5 categories, clearing a backlog of 200+ documents in 6 weeks.
- Quantified the avoided cost at ~€2,250/year (5 people × 6 min/day × 250 days × €18/h), demonstrating an ROI greater than 4.8×.
- Performed routine accounting operations in Sage 100 (data entry, reconciliation, filing of accounting documents).

  > Avoided cost calculation and recommendations on my portfolio

EDUCATION
