Available for a work-study contract (apprenticeship) or an internship (Master's level) – starting January or September/October | Work-study schedule: 3 weeks at work / 1 week at school

PROFILE

Master's student in Accounting, Control and Finance at EM Strasbourg Business School, seeking a work-study contract or an internship in financial analysis, management control, accounting, audit or compliance (KYC, AML/CFT). Three internships in a banking group, a consulting firm and a private company have strengthened my skills in reporting, financial analysis and data control, with measurable results: error rate reduced from 15% to 5% and processing time cut by 75%.

PROFESSIONAL EXPERIENCE

Management Control and Reporting Intern | Wafasalaf (Attijariwafa bank group) | Casablanca, Morocco | Jun 2025 – Aug 2025

- Consolidated data from several departments to produce the monthly management report; analysed variances between targets and actuals and identified key issues to escalate to the relevant teams.
- Designed tracking tools and dashboards in Excel; wrote clear, data-driven summaries for senior management.
- Improved the reliability of the customer database (duplicates, inconsistencies, quality checks): error rate reduced from 15% to 5% in 3 months.

Financial Analysis and Accounting Control Intern | ACF Conseil | Casablanca, Morocco | Jul 2024 – Sep 2024

- Analysed the financial statements of 10+ micro, small and medium-sized enterprises (balance sheet, income statement, ratios) to assess their financial position, risks and key issues.
- Automated recurring checks in Excel (pivot tables, VLOOKUP), reducing processing time and the risk of error.
- Checked that accounting entries matched supporting documents; detected and escalated anomalies in a timely manner.

Billing Data Entry and Control Intern | Xcopy | Casablanca, Morocco | Jun 2024 – Jul 2024

- Monitored and checked billing data for 200+ clients; organised the collection of missing information from the relevant departments.
- Coordinated the redesign of the approval workflow with three departments and monitored its implementation: processing time cut from 8 to 2 minutes per record (~75%).
